

Cyberian LT SR Dual

The Cyberian LT buckles from ITW Nexus offer 10% less material while keeping comparable strength with the iconic Cyberian II buckle. Both the outboard triggers for enhanced use in wintry conditions and the lifter tab of the Cyberian LT have been redesigned to offer a light-weight streamlined aesthetic while maintaining the benefits of a “snowplow” debris clearing tip and anti-pinch feature. The Dual offers adjustment from both sides of the part.

	Material	Colors	A	B	C	D
Cyberian LT SR 20 Dual (shown w/Latch 602-1100)						
602-2100	A	B	20.8	31.1	65.3	12.9
