Side Release Buckles

Mach I SR Single

The Mach I Series is our next generation, fully-featured SR buckle family. Mach I's unique and subtle design features both contoured and dished details offering compatibility with a wide range of end product styles. Additional product attributes include both length and weight reduction compared with competitive product as well as our time-proven ITW Slick-Click™ locking mechanism and Mini-Hugger™ release tab. Full flex latch with polished arms provides smooth assembly and release, and the Anti-Pinch™ feature round out the feature set. The Mach I Side Release - the result of over 40 years of continuous buckle innovation from ITW Nexus.

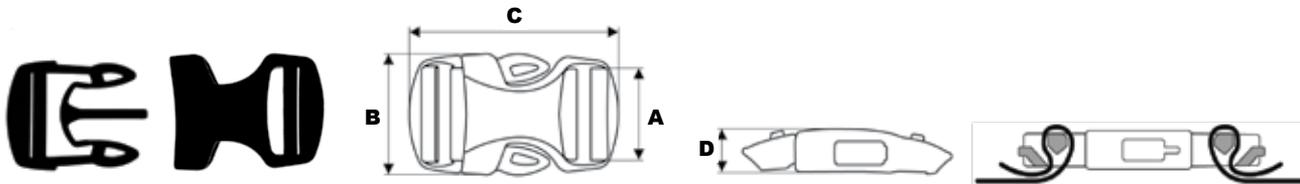

Description	Latch P/N	Body P/N	Material	Color	Dimensions (mm)			
					A	B	C	D
Mach I SR 16	307569 (408-1000)	307567 (408-0000)	Acetal	Black	15.8	23.5	44.2	10.2
Mach I SR 20	307570 (408-1100)	307568 (408-0100)	Acetal	Black	20.6	27.6	46.2	9.7

SR 1

Originally designed and patented by ITW Nexus, the Side Release™ buckle has long been the industry standard for side release functionality and design appearance. Center bar wings prevent over-flexure of arms and release under impact loading. The Ladderloc feature provides maximum webbing grip while allowing smooth and easy adjustment.

				Dimensions (mm)			
Description	P/N	Material	Color	A	B	C	D
SR 1	305814 (101-0100)	Acetal	Black	25.0	31.9	70.0	11.7

Ladderlocs

Mach I LL Dual

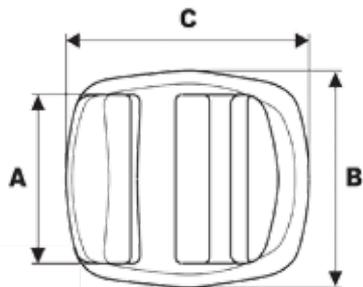

The Mach I Ladderloc is designed as a complement to the Mach I SR. The top contour parallels the bottom contour, allowing the Mach I LL to seamlessly integrate with the contour of the finished product and offers compatibility with a wide range of end product styles. Additionally the top of the part is slightly wider than the bottom for enhanced operational access while the open tab provides dual function for both an ergonomically correct release and optional lanyard attachment. The Mach I Ladderloc features a dual bar tie-down for traditional attachment, a standard release angle in the 50-55 degree range and is available in 16, 20 and 25 sizes.

				Dimensions (mm)			
Description	P/N	Material	Color	A	B	C	D
Mach I LL 16 Dual	307580 (408-3000)	Acetal	Black	16.0	21.7	30.3	9.3

PBR Swivel

Our latest addition to the PBR Series offers an alternative design with a fresh, simple, and clean aesthetic. Patented “Push Button and Slide” motion provides intuitive user interface for disassembly and no actuation for assembly. The PBR also features ease of use, as much as 50% reduction in length (and associated weight savings) as well as tensile strength increase when compared with traditional plastic snap hooks.

Available sizing: 40mm PBR Swivel Housing with 25mm and 40mm Retainers.

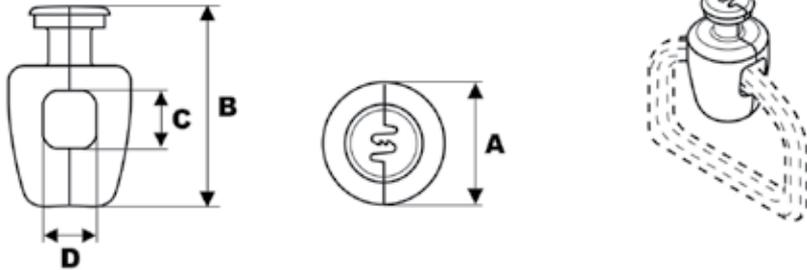

Description	Retainer P/N	Housing 40 P/N	Retainer	in	Material	Color	Dimensions (mm)			
							A	B	C	D

PBR Post Adapter

The PBR Swivel Post Adapter is a common two-piece part allowing for the attachment of the PBR Swivel to a bag using a traditional D-Ring. Ratchet-assembled from two common parts, the Post Adapter provides seamless integration where none was previously possible. The post portion allows the assembly rotary action while the hollow cylinder allows for bending action about the ring.

Description	P/N	Material	Color	Dimensions (mm)			
				A	B	C	D
PBR Post Adapter	307586 (629-0400)	Acetal	Black	14.3	23.7	6.7	6.8

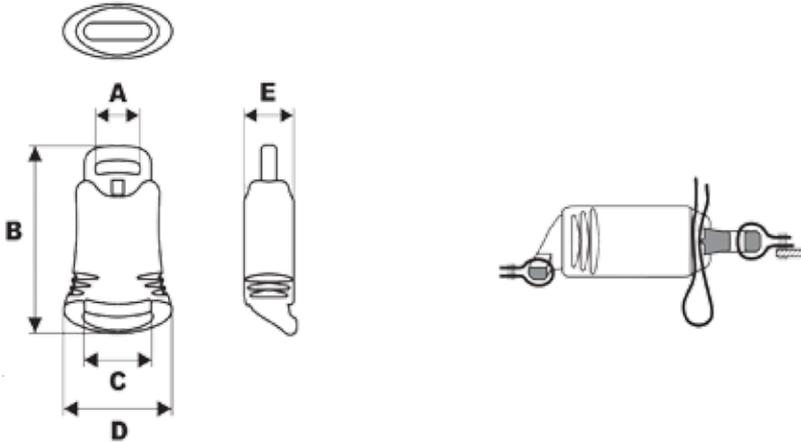

Components ordered separately

Cord Locks

Cyberian CL

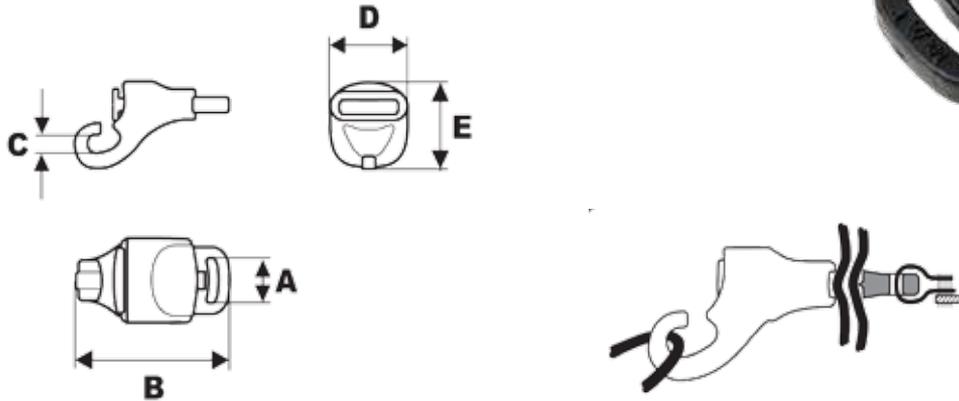

The Cyberian CL brings a paradigm shift in CordLoc operation by introducing “pull to loosen, pull to tighten” technology for tethered CordLoc applications. Pull cord to tighten as normal; pull webbing attached to flared slot to loosen.

				Dimensions (mm)				
Description	P/N	Material	Color	A	B	C	D	E
Cyberian CL	303368 (350-8000)	Acetal, Steel	Black	8.0	30.9	12.0	20.0	8.6
Cyberian CL Small	303427 (350-8200)	Acetal, Steel	Black	6.0	23.8	9.8	16.0	7.4

Cyberian SpeedHook

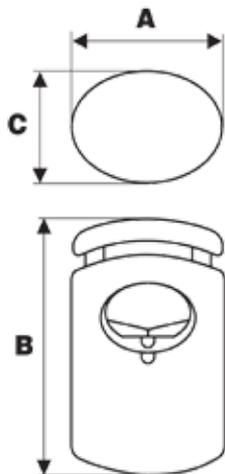

The Cyberian SpeedHook brings a paradigm shift to tool lashing methodology by extending “pull to loosen, pull to tighten” technology. Designed for 2.8-3.0mm cord, the SpeedHook is contoured to accept the radius of trekking poles or ice ax handles. User loops part around tool and hooks to cord loop and pulls to tighten. To access tools, simply unhook or pull on the part itself to loosen, then unhook.

Description	P/N	Material	Color	Dimensions (mm)				
				A	B	C	D	E
Cyberian SpeedHook	303403 (350-8100)	Acetal/Steel	Black	8.0	31.3	3.50	15.7	16.1

Ellipse CL

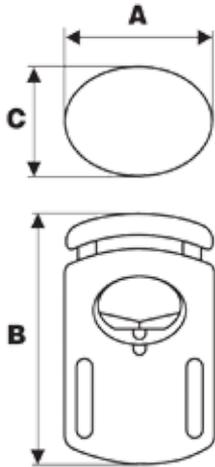

Originally designed by ITW Nexus, the Ellipse CordLoc features patented hole alignment eliminating the manual closure compression while threading the cord; cord is simply threaded through the pre-aligned holes, and a squeeze unlocks the mechanism and engages the spring to grip the cord.

				Dimensions (mm)		
Description	P/N	Material	Color	A	B	C
Ellipse CL	303308 (350-1001)	Acetal, Steel	Black	14.5	27.0	9.8

Toaster CL

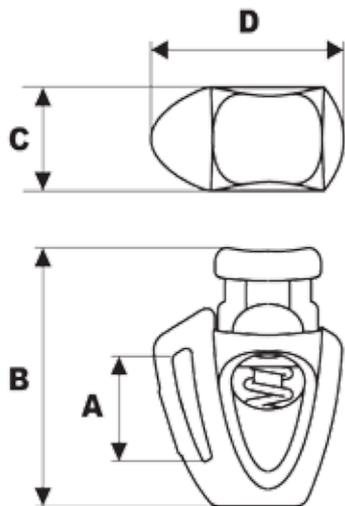

Originally designed by ITW Nexus, the Toaster CL provides the option for a lanyard tie-down to assist in one-hand adjustment and features patented hole alignment eliminating the manual closure compression while threading the cord; cord is simply threaded through the pre-aligned holes, and a squeeze unlocks the mechanism and engages the spring to grip the cord.

				Dimensions (mm)		
Description	P/N	Material	Color	A	B	C
Toaster CL	303336 (350-4001)	Acetal, Steel	Black	14.5	27.0	9.8

Micro CL

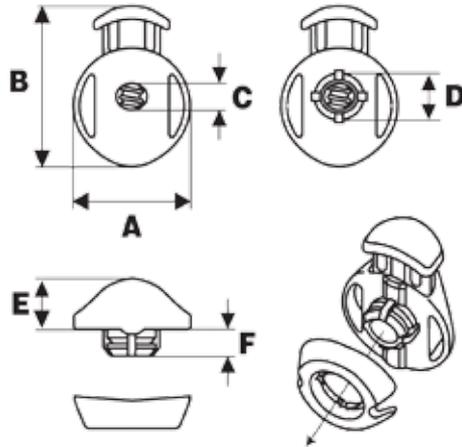

A miniature CordLoc in an aero shape, the Micro CL is designed for 1.5mm - 2mm cord; the asymmetric tie-down loop accepts up to 6mm web.

				Dimensions (mm)			
Description	P/N	Material	Color	A	B	C	D
Micro CL	306044 (350-7000)	Acetal, Steel	Black	7.8	17.5	6.8	13.8

SurMount CL

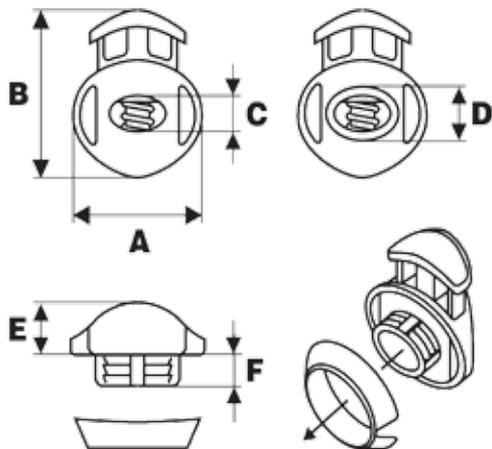

The SurMount CL is a two piece CordLoc designed for tethered CordLoc applications. The SurMount CL is mounted to the fabric with a ratcheting assembly; ratcheting backplate accepts fabric thickness of .35mm-.75mm (material dependent) and the cord hole size is 3.8mm x 5.0mm. The angled finger locators provide ease of release.

				Dimensions (mm)					
Description	P/N	Material	Color	A	B	C	D	E	F
SurMount CL (with backplate)	303366 (350-5000)	Acetal, Steel	Black	18.9	24.3	4.0	8.0	8.1	3.7

SurMount CL Dual

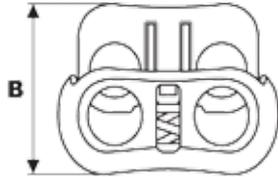

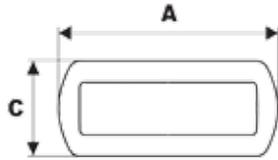

The SurMount CL Dual is a two piece CordLoc designed for tethered CordLoc applications. The SurMount CL Dual is mounted to the fabric with a ratcheting assembly; ratcheting backplate accepts fabric thickness of .35mm-1.4mm and the cord hole size is 5.6mm x 10mm. The angled finger locators provide ease of release.

Description	P/N	Material	Color	Dimensions (mm)					
				A	B	C	D	E	F
SurMount CL Dual (with backplate)	303327 (350-4000)	Acetal, Steel	Black	22.8	26.7	5.4	10.0	8.3	4.6

Dual CordLoc

The Dual CordLoc is our latest offering to handle hem, waistband or footwear cord lacing applications. Providing standard holding strength, the Dual CL is contoured for easy finger location for activation.

				Dimensions (mm)		
Description	P/N	Material	Color	A	B	C
Dual CordLoc	303447 (350-9000)	Acetal, Steel	Black	19.8	13.9	7.9

Cord Ends

Cyberian Sharktooth

Used with 2.8-3.2mm cord, the Cyberian Sharktooth continues the Cyberian Family styling in a cord end. Its unique shape and wedge locking mechanism create for easy finger location and greater pull strength.

					Dimensions (mm)			
Description	Latch P/N	Body P/N	Material	Color	A	B	C	D
Cyberian Sharktooth	305738 (864-7007)	305728 (864-7006)	Acetal	Black	1.75	16.0	14.9	11.5

Components ordered separately

Whistle CordEnd

The Whistle CordEnd design incorporates a whistle and is designed for use in zipperpull or lanyard cord applications using 550 paracord.

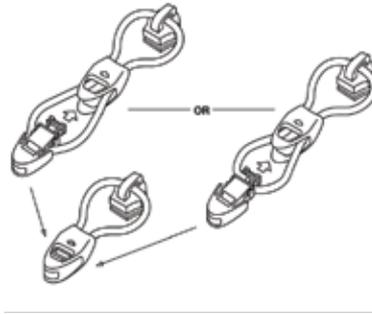

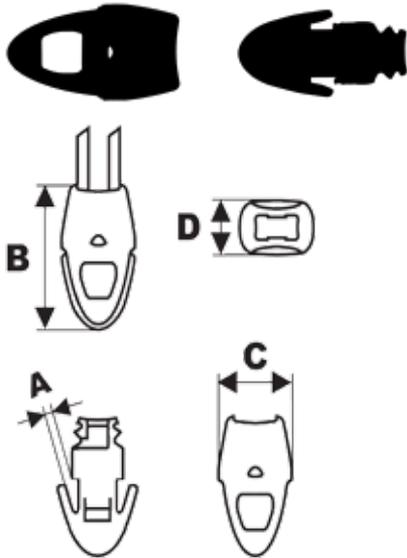

Description	Latch P/N 306785 (864-8006)	Body P/N 306788 (864-8008)	Material	Color	Dimensions (mm)			
					A	B	C	D
Whistle CordEnd	306785 (864-8006)	306788 (864-8008)	Acetal	Black, Orange, Grey	2.3	42.6	18.4	11.5

Components ordered separately

AeroWave

The AeroWave zipper pull design incorporates a whistle and is designed for use in zipperpull applications using 3mm cord.

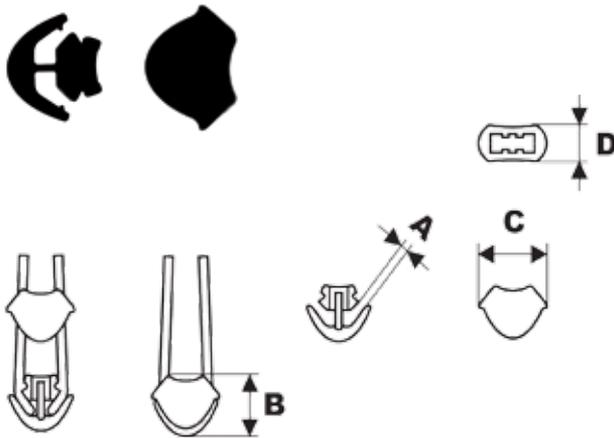

Description	Latch P/N	Body P/N	Material	Color	Dimensions (mm)			
					A	B	C	D
Aerowave	306771 (864-6010)	306769 (864-6000)	Acetal	Black, Orange, Grey	2.7	34.0	19.1	12.8

Components ordered separately

Aerohead

Typically used with 3mm cord, the Aerohead has an enhanced shape and wedge locking mechanism that creates a loop for easy finger location and greater pull strength.

					Dimensions (mm)			
Description	Latch P/N	Body P/N	Material	Color	A	B	C	D
Aerohead	305682 (864-4000)	305638 (864-3000)	Acetal	Black	2.7	15.6	19.7	9.4

Components ordered separately

NexGrip Aerohead

The NexGrip Aerohead is a two shot injection molded part and incorporates a soft touch feel resulting in a comfortable grip for the user. The NexGrip Aerohead body is used in conjunction with the Aerohead latch.

					Dimensions (mm)			
Description	Latch P/N	Body P/N	Material	Color	A	B	C	D
NexGrip Aerohead	305682 (864-4000)	303002 (864-5000)	Polypropylene, Elastomeric Resin, Acetal	Black, Grey	2.7	15.6	19.7	9.4

Components ordered separately

NiteShade Aerohead

The NiteShade Aerohead incorporates glow-in-the-dark technology. The latch portion of the Aerohead, after exposure to either sunlight or artificial light, will glow for up to six hours. The latch's natural color is opaque white and glow-in-the-dark color is green.

					Dimensions (mm)			
Description	Latch P/N	Body P/N	Material	Color	A	B	C	D
NiteShade Aerohead	305711 (864-4000)	305638 (864-3000)	Acetal, Polypropylene	Black, Opaque	2.7	15.6	19.7	9.4

Components ordered separately

www.itwnexus.com

Aerohead 2.0

The Aerohead 2.0 offers proven Aerohead mechanics and assembly with a concave grip and accommodates 2.0mm cord.

					Dimensions (mm)			
Description	Latch P/N	Body P/N	Material	Color	A	B	C	D
Aerohead 2.0	305720 (864-7004)	305728 (864-7006)	Acetal	Black	1.6	11.7	12.3	7.5

Components ordered separately

Micro Aerohead

The Micro Aerohead is a smaller version of the Aerohead designed to fit 1.5 - 2mm cord.

					Dimensions (mm)			
Description	Latch P/N	Body P/N	Material	Color	A	B	C	D
Micro Aerohead	306767 (864-2000)	306765 (864-1000)	Acetal	Black	1.0	10.1	10.9	5.1

Components ordered separately

LineLoc 3 Anchor

The LineLoc 3 Anchor allows fixation of 3mm cord into a seam using a sewable nylon part which if necessary offers field reparability to replace a worn or damaged cord without seam repair.

				Dimensions (mm)				
Description	P/N	Material	Color	A	B	C	D	E
LineLoc3 Anchor	306713 (654-2010)	Nylon 6/6	Black	3.8	18.6	32.8	9.8	17.0

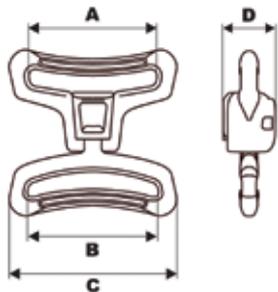

Snap Hooks & Connections

PBR Swivel

Our latest addition to the PBR Series offers an alternative design with a fresh, simple, and clean aesthetic. Patented “Push Button and Slide” motion provides intuitive user interface for disassembly and no actuation for assembly. The PBR also features ease of use, as much as 50% reduction in length (and associated weight savings) as well as tensile strength increase when compared with traditional plastic snap hooks.

Available sizing: 40mm PBR Swivel Housing with 25mm and 40mm Retainers.

							Dimensions (mm)			
Description	Retainer P/N	Housing 40 P/N	Retainer	in	Material	Color	A	B	C	D
PBR Swivel 40	304869 (629-0300)	304871 (629-1300)	40 mm	1.5	Acetal	Black	38.5	38.5	51.7	15.6
PBR Swivel 25	304866 (629-0200)	304871 (629-1300)	25 mm	1	Acetal	Black	38.5	25.9	37.0	15.6

Components ordered separately

PBR Post Adapter

The PBR Swivel Post Adapter is a common two-piece part allowing for the attachment of the PBR Swivel to a bag using a traditional D-Ring. Ratchet-assembled from two common parts, the Post Adapter provides seamless integration where none was previously possible. The post portion allows the assembly rotary action while the hollow cylinder allows for bending action about the ring.

				Dimensions (mm)			
Description	P/N	Material	Color	A	B	C	D
PBR Post Adapter	307586 (629-0400)	Acetal	Black	14.3	23.7	6.7	6.8

Components ordered separately

StructSure Hook

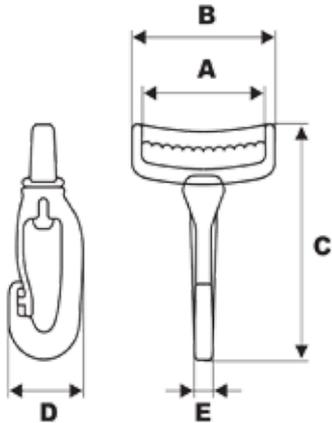

The StructSure Hook features the strength of metal, the light weight of thermoplastic and incorporates an interlocking tongue to resist release during side stress applications. The StructSure “family” look is completed when used in conjunction with the StructSure D-Ring and Aerohead.

				Dimensions (mm)				
Description	P/N	Material	Color	A	B	C	D	E
StructSure Hook 25	304864 304865 (625-0000)	Nylon 6/6, Steel	Black/Black; Black/Pewter	29.3	36.6	60.5	22.1	12.1
StructSure Hook 40	304896 304897 (640-0000)	Nylon 6/6, Steel	Black/Black; Black/Pewter	37.8	44.8	62.4	22.1	12.1

Interlocking Swivelhook

The Swivelhook was designed with arched web bars to distribute stress evenly along the span of the entire bar with ribs to prevent webbing from bunching. With a smooth rotary movement, the Swivelhook allows straps to remain tangle free.

				Dimensions (mm)				
Description	P/N	Material	Color	A	B	C	D	E
Interlocking Swivelhook 25	305891 (129-2100)	Acetal, Nylon 6/6	Black	25.9	32.2	63.7	23.4	6.2
Interlocking Swivelhook 40	305899 (129-2150)	Acetal, Nylon 6/6	Black	38.3	44.7	66.4	23.4	6.2

Tri-Glides & Rings

Mako TG

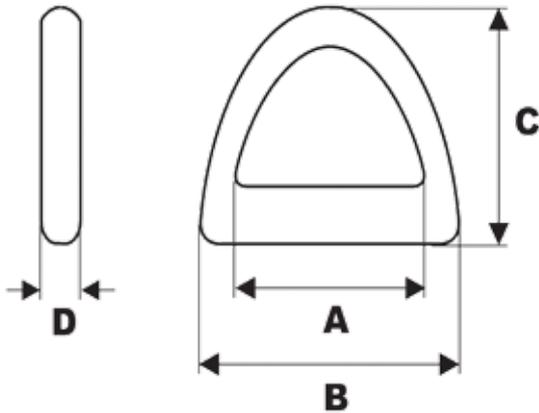

The Mako Tri-Glide is a re-styled and updated version of the standard Tri-Glide

Description	P/N	Material	Color	Dimensions (mm)			
				A	B	C	D
Mako TG 20	305819 (105-2020)	Acetal	Black	20.3	27.9	20.8	5.8
Mako TG 25	305846 (105-2025)	Acetal	Black	25.8	33.3	20.8	5.9
Mako TG 40	303084 (105-2040)	Acetal	Black	38.9	48.9	34.0	8.2
Mako TG 50	303097 (105-2050)	Acetal	Black	51.6	61.6	34.5	8.2

Mako DR

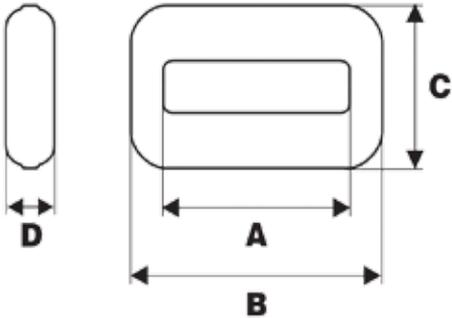

The Mako D-Ring is a re-styled and updated version of the standard D-Ring.

Description	P/N	Material	Color	Dimensions (mm)			
				A	B	C	D
Mako DR 20	303100 (110-2020)	Acetal	Black	20.3	29.7	27.0	5.3
Mako DR 25	303104 (110-2025)	Acetal	Black	25.4	34.2	29.3	5.6

Mako LP

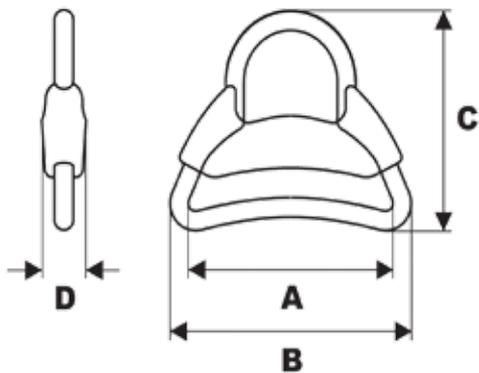

The Mako Looploc is a re-styled and updated version of the standard Looploc.

Description	P/N	Material	Color	Dimensions (mm)			
				A	B	C	D
Mako LP 20	305876 (111-2020)	Acetal	Black	20.3	27.2	23.7	7.1
Mako LP 25	305881 (111-2025)	Acetal	Black	26.0	32.4	25.6	7.1

StructSure DR

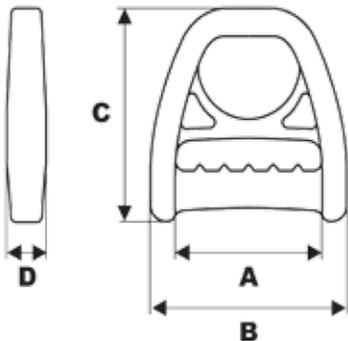

The StructSure D-Ring features the strength of metal and the light weight of thermoplastic. The StructSure family look is completed when used in conjunction with the StructSure Hook and Aerohead.

				Dimensions (mm)			
Description	P/N	Material	Color	A	B	C	D
StructSure DR 40	303303 303302 (240-0000)	Acetal, Steel	Black/Pewter, Black/Black	38.1	45.0	38.1	8.5

World DR

The World D-Ring (WDR) incorporates a double bar to inhibit the webbing from bunching and keeps the WDR in stable position within the webbing loop. Arched web bars distribute stress evenly along the span of the entire bar, and with ribs prevent webbing from bunching.

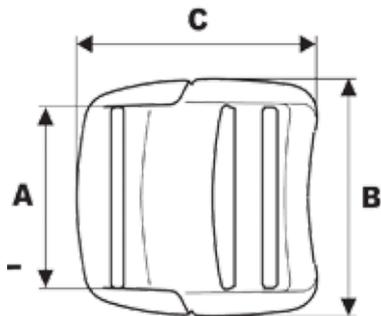

Description	P/N	Material	Color	Dimensions (mm)			
				A	B	C	D
World DR 25	305910 (140-0025)	Acetal	Black	25.4	32.1	25.7	5.4
World DR 40	305912 (140-0040)	Acetal	Black	37.8	46.2	28.7	6.1
World DR 50	305913 (140-0050)	Acetal	Black	50.2	58.4	30.7	6.1

Cam Buckles

Cyberian Cam

The Cyberian Cam offers classic cam mechanics with the WebTorque™ slotted door for controlled web adjustment and prevention of web-run when the door is opened. Cyberian lifter tabs along the sides are also provided as adjustment options for ease of use with gloved hands. Two web slots in the contoured base offer threading options (shown) and stabilizer tab at tie-down helps ease of release.

				Dimensions (mm)			
Description	P/N	Material	Color	A	B	C	D
Cyberian Cam 40	305805 (100-0940)	Acetal, Nylon 6/6	Black	38.8	51.3	55.5	16.4
Cyberian Cam 50	305808 (100-0950)	Acetal, Nylon 6/6	Black	51.0	67.4	75.0	20.0
Cyberian Cam 50 (Thick Web)	305809 (100-1950)	Acetal, Nylon 6/6	Black	51.0	67.4	75.0	20.0

Accessories

Mako Clip

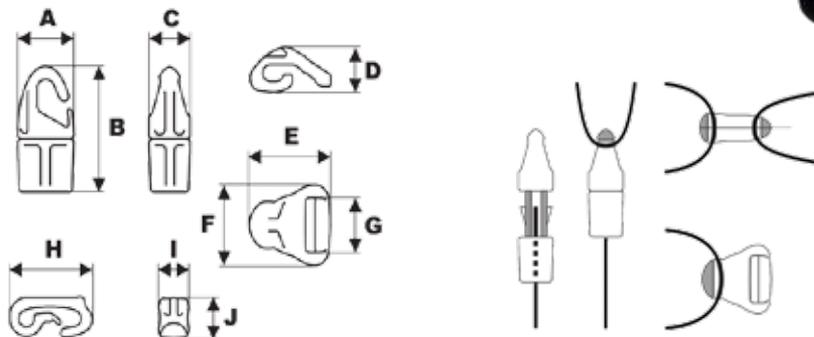

The Mako Clip offers a unique and versatile attachment product for keys or other items. Designed for one hand operation, the Mako Clip can be attached to webbing for tethered applications or anchored using both web loops.

				Dimensions (mm)				
Description	P/N	Material	Color	A	B	C	D	E
Mako Clip	305630 (829-2000)	Acetal	Black	14.0	23.9	36.9	9.2	4.3 Dia.

Shock Cord Management System

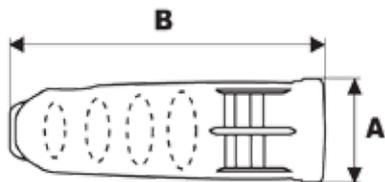

The Shock Cord Management System allows versatility in your shock cord lashing system. The PackHook, ClipHook and EndHook give the user the option of attaching and detaching the cord frame from multiple locations and easily accommodates the shape and size of the carried object.

Description	P/N	Material	Color	Dimensions (mm)									
				A	B	C	D	E	F	G	H	I	J
PackHook	304844 (606-0125)	Acetal	Black				13.1	18.7	19.3	13.0			
ClipHook	306668 (606-1125)	Acetal	Black								21.2	8.1	9.4
EndHook	306679 (606-2125)	Acetal	Black	14.3	30.2	10.5							

Aqua Marine Whistle

The Aqua Marine Whistle is a redesign of our original Marine Whistle, incorporating enhanced ergonomics. It is also non-corrosive, dual-toned and able to float in water; it features a retainer clip, which offers easy attachment to a belt or pack. The patented whistle may be used either with a lanyard or clipped directly onto the application. Average decibel level of 106 dB(A).

				Dimensions (mm)		
Description	P/N	Material	Color	A	B	C
Aqua Marine Whistle	303000 (609-1000)	Polypropylene	Orange, Black	21.8	72.5	18.9

Material Descriptions

Acetal – a crystalline thermoplastic polymer material. Acetal characteristically has excellent tensile strength, stiffness, surface hardness and chemical resistance. Acetal has excellent flexural memory and property retention when subjected to repeated loading. The normal short-term use temperature range is -40°F to +270°F (-40°C to +132°C). Acetal is recommended for high performance applications. Physical properties remain consistent across a wide range of temperature, relative humidity, and weather conditions.

Nylon 6/6 – a thermoplastic polyamide resin. This material maintains good tensile strength, chemical resistance, stiffness and flexural memory. Nylon is excellent in high temperature applications. The normal short-term use temperature range is -40°F to +390°F (-40°C to +199°C). Nylon is however, a hydroscopic resin, therefore, physical properties will vary as the relative humidity changes. When dry, tensile strength is higher and impact is lower. When wet, tensile strength is lower and impact strength is higher.

Supertough Nylon – an impact modified crystalline thermoplastic polyamide resin. The defining Supertough Nylon characteristic is superior resistance to repeated impact loads. This material maintains good tensile strength, chemical resistance, stiffness and flexural memory. Nylon is excellent in high temperature applications. The normal short-term use temperature range is -40°F to +390°F (-40°C to +199°C). Nylon is, however, a hydroscopic resin. Therefore, physical properties will vary as the relative humidity changes. When dry, tensile strength is higher and impact is lower. When wet, tensile strength is low and impact strength is very high. Supertough is recommended for specific products or applications where extreme impact resistance is needed.

The information provided on this page is to be used as a preliminary guideline when considering what materials to use in specific applications. This is not guaranteed performance data, since the information provided is general to the raw materials and therefore may vary by product, design or specific loading application. It is the customer's responsibility to determine the suitability of our products in a particular application. Please contact ITW Nexus if you require any additional information.

Elastomeric Resin – a thermoplastic material. It is a flexible plastic that bridges the gap between rubbery elastomers and rigid plastics. In general, it exhibits good low temperature flexibility, good toughness, chemical resistance and excellent abrasion resistance. Normal short-term use temperature range is 0°F to +293°F (-18°C to +145°C). Material properties will change drastically outside of this range. This temperature range is material-based and individual parts may perform differently.

The information provided on this page is to be used as a preliminary guideline when considering what materials to use in specific applications. This is not guaranteed performance data, since the information provided is general to the raw materials and therefore may vary by product, design or specific loading application.
